# Magrathea Telecommunications Ltd. becomes first carrier to join Bicom Systems' Service Providers Listings

Company Demonstrates that Software will provide the simplest way to set up a Telephony Solution

LONDON (October 19, 2004) – Bicom Systems announced today that on October 18, 2004 it has introduced its first service provider, Magrathea Telecommunications Ltd, into its unique offering of service providers lists. The Service Providers List is to list all service providers whose services will be setup automatically in PBXware and SWITCHware products. Services auto configuration will encourage an even wider range of audience to use VOIP and IP PBX technologies.

"Magrathea is the first Service Provider that can be set-up automatically just by "point and click," said Stephen Wingfield, Bicom Systems' President, "This step is significant because it demonstrates that the established players in the Industry wish to promote their services actively through PBXWare and SWITCHware."

"PBXWare and SwitchWare solutions from Bicom Systems will reduce the support issues for Service Providers such as ourselves and further promote our services . It would appear that now almost anyone can have full Telephony Solution for a few hundred pounds." said Linus Surguy, Magrathea's Technical Director.

[The](#) Bicom Systems expects to soon announce the introduction of other Service Providers. This will allow integrators and in turn End-Users an instant choice of competitive services from around the world such as Trunk routing, termination, DID, origination. Bicom Systems also expects to be shortly announcing agreements with key user agent manufacturers so that IP phones, ATAs etc. may be auto-configured for each user.

The PBXWare and SwitchWare between them provide the following:

- CRM and Billing
- CMS
- Instant account activation
- Users Web Interface
- Conference Provision
- Queues, Auto-attendants, Music-on-Hold
- Vertical Services
- PSTN and VoIP Trunk
- Support for SIP, IAX, H323, SS#7, Euro-ISDN
- Support for GSM, G.711ulaw, G.711alaw, ADPCM, ILBC, SPEEX
